GLOBAL TOURISM PERFORMANCE

The demand for international tourism remained robust in 2016 despite challenges of economic growth, political stability and safety and security. According to the latest UNWTO World Tourism Barometer, international tourist arrivals grew by 3.9% to reach a total of 1,235 million in 2016. This represented an increase of some 46 million tourists compared to 2015.

The UNWTO also reported that the year 2016 was the seventh consecutive year of sustained growth following the 2009 global economic and financial crisis. A comparable sequence of uninterrupted solid growth has not been recorded since the 1960s. As a result, 300 million more international tourists travelled the world in 2016 as compared to the pre-crisis record in 2008.¹

The majority of the regions reported improved performances over 2015. **Asia and the Pacific** and **Africa** led the growth with each region recording an estimated 8% increase. In **Asia and the Pacific**, international tourist arrivals grew by 24 million to total of 303 million. International arrivals to **Africa** rebound after two troubled years, to reach 58 million; some 4 million more arrivals were recorded.

Europe, which accounted for almost half of the total international arrivals, grew by a modest 2% or 12 million more visitors when a total of 620 million visitors were recorded. Results in **Europe** were rather mixed with a number of destinations affected by safety and security challenges.

The **Middle East** received 54 million international tourist arrivals in 2016. Arrivals decreased an estimated 4%.²

International tourist arrivals in the **Americas** (+4%) increased by 8 million to reach 201 million, consolidating the solid results recorded in the last two years. Growth was somewhat stronger in South America and Central America (both +6%), while the Caribbean and North America recorded around 4% more arrivals.

² Results for both Africa and the Middle East are based on limited available data available to UNWTO.

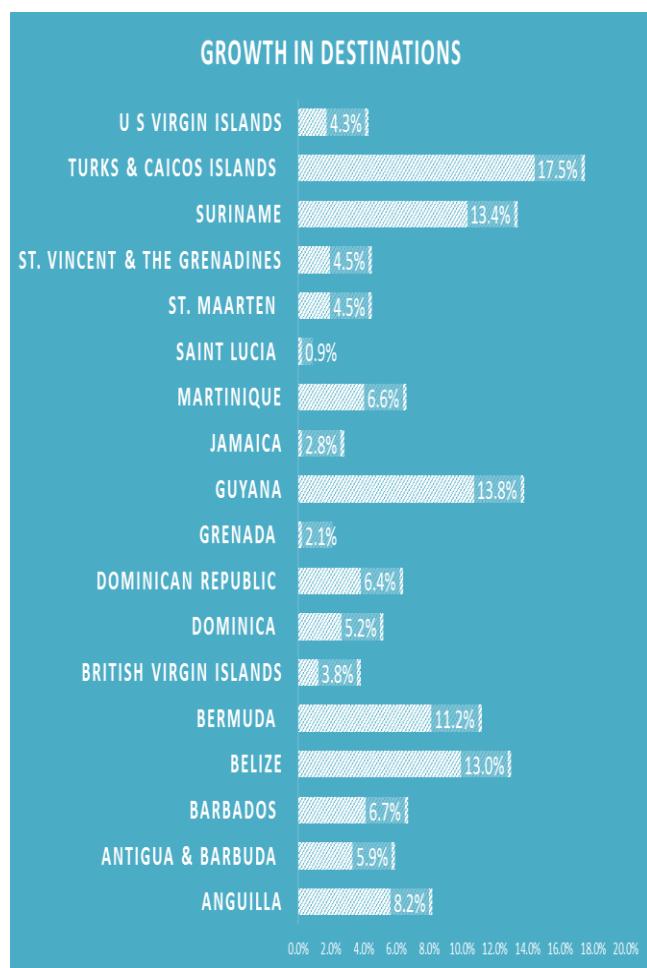

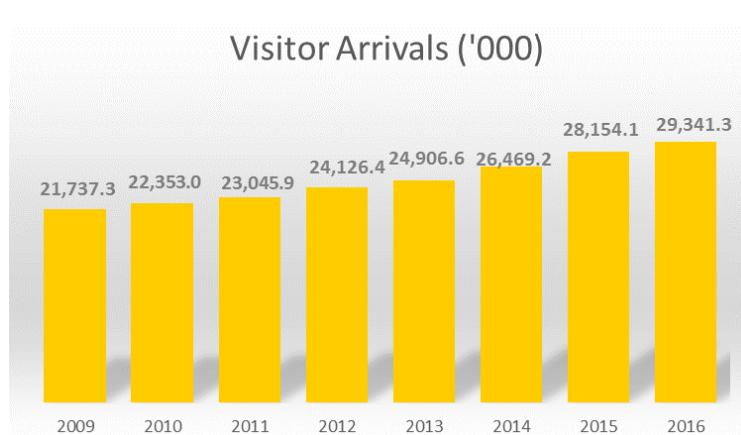

CARIBBEAN PERFORMANCE

CARIBBEAN TOURISM PERFORMANCE

Visitor (Stay-Over) Arrivals

According to the Caribbean Tourism Organisation (CTO), the Caribbean posted its seventh year of unbroken growth. It is estimated that the region received 29.3 million international tourist arrivals, compared to 28.2 million in 2015. This corresponds to 1.1 million more arrivals or a 4.2% increase.

Tourist arrivals to the Caribbean showed uneven growth among the destinations. Of the 28 destinations reporting data for varying periods between January and December, 22 recorded increases ranging from 0.9% (Saint Lucia) to 17.5% (the Turks & Caicos Islands), while the remaining six destinations had losses between -5.6% (Curacao) and -25.6% (Suriname). Other notable countries are Guyana, Belize and Bermuda with double-digit growth rates of 13.8%, 13.0% and 11.2%, respectively. Strong growth, in excess of 5%, was reported in eight other destinations: Anguilla, Antigua & Barbuda, Barbados, Dominican Republic and Martinique. **(See Appendix: Table 2)**

According to the CTO, the contributing factors to these performances include greater air access from the source markets to the region, the realization of significant investments to enhanced infrastructure (airport redevelopment in St. Maarten and Bermuda) and product (hotels including Courtyard by Marriott in Jamaica in April of 2016 and Four Seasons in Anguilla in October 2016) and improved marketing. In the case of the Guyana and Barbados, a further boost in arrivals came with the celebration of their 50th Anniversaries of Independence in May and November, respectively³.

³ The Caribbean Tourism Organization (CTO) Performance of the Tourism Industry

United States

Due to relatively strong economy, decline in unemployment and high consumer confidence, the USA market continues to be the major source of visitors to the Caribbean. The CTO has estimated that 14.6 million stay-over arrivals came from the United States, representing an annual growth rate of 3.5%.⁴ International trips from the United States to the region increased in 19 destinations out of 24 reporting overall and declined in five. During the period January to December, 18 out of 20 destinations registered growth in arrivals from the United States, led by Belize (18.3%) followed by Bermuda (16.4%) and the Turks & Caicos Islands (16.1%). Curaçao (-5.5%) and Trinidad and Tobago (-4.4%) were the only destinations to record decreases during this time.⁵

Canada

The weak Canadian dollar was one of the factors that plagued arrivals from this market to the region in 2016. The CTO has reported that the contraction in tourist visits for the year was estimated at around -3.4% compared to

2015, as tourist visits from the Canada numbered 3.3 million and contributed 11.3% of total arrivals to the Caribbean.⁶ Ten destinations (out of 25 reporting) registered growth in visitor trips from Canada, while declines were recorded in 15 destinations from this market. Out of 20 destinations reporting arrivals from this market for the period January to December, eight destinations recorded growth ranging from 0.1% in Grenada to 28.6% in St. Maarten. Declines registered in the other ten destinations ranged from -0.7% in Guyana to -15.9% in The Bahamas. The Dominican Republic, the primary destination for this market, also showed growth of 3.0%.⁷

Europe

Despite terrorist attacks, the Brexit referendum and mixed economic outcomes across continental Europe, the demand for travel remained robust among this market's residents during the year 2016. According to The Caribbean Tourism Organization (CTO) Performance

of the Tourism Industry 2016 report, arrivals from the European market totalled 5.6 million, increasing by an estimated 11.4%; the strongest growth among the main markets. There was growth in Europeans arrivals to region in each month of the year when compared to 2015. These increases ranged from 6.1% in April to 16.8% in September. Growth in the high-volume destinations the Dominican Republic (11.2%) and Jamaica (6.1%) factored significantly in the overall performance in this market.

In total, 17 out of 25 reporting destinations registered increases and eight destinations registered declines in arrivals from this market. The top performing destinations, which registered double-digit increases were the Turks & Caicos Islands (27.7%), St. Maarten (24.3%), Anguilla (12.8%) and Guyana (10.8%). The contractions recorded in arrivals from this market during this period ranged from -0.3% in Antigua & Barbuda to -14.5% in the Cayman Islands.⁸

Intra-Caribbean

The CTO has reported that travel by Caribbean residents to destinations within the region increased by an estimated 3.6% during 2016, the second consecutive year of growth. Despite this positive result, intra-regional travel remained costly with fragmented air service. The majority of the tourists visited the Dominican Republic, Trinidad & Tobago and Barbados. Robust growth was experienced in Guyana (39.1%), St. Vincent & the Grenadines (14.1%) and the Turks & Caicos Islands (13.5%). Seven destinations did not improve upon last year's performance and recorded decreases in the range of -2.5% in Trinidad & Tobago to -43.6% in Suriname.

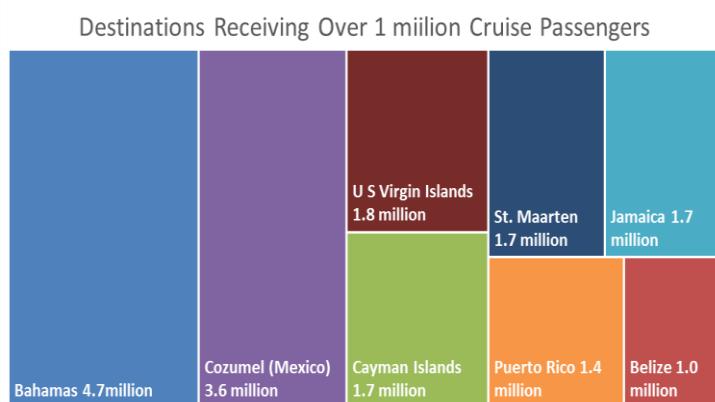

South America

In 2016, the region received fewer (-10.6%) tourist arrivals compared to 2015. This was partly due to the continuing economic and political instability in two of three main South American source markets (Brazil and Venezuela). South American tourist arrivals were received primarily by the Spanish and Dutch speaking destinations. There was a growth in arrivals to the Dominican Republic by 4.3%, however, the number of visitors to Aruba and Curaçao contracted by -31.9% and -23.0%, respectively.

⁸ Ibid

Cruise Arrivals to the Caribbean

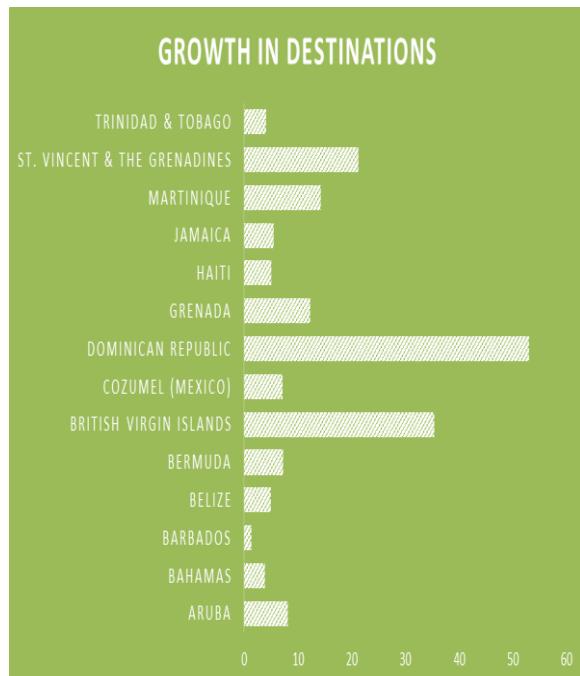

According to the Cruise Lines International Association (CLIA), the Caribbean received 33.7% of all cruise deployments in 2016, almost twice as many as any other region. According to the CTO, the estimated number of cruise passenger arrivals in the region during 2016 increased by 1.3% to approximately 26.3 million. This modest increase was a combination of varied performances in cruise activity among the destinations as larger ships, port enhancements and new destinations on the Caribbean cruise itineraries helped to increase the attractiveness of Caribbean cruise holidays. On the other hand, growing concerns of Zika

Eight destinations reported over one million cruise passengers with the Bahamas leading after recording 4,690,374 passengers, followed by Cozumel with 3,637,321 passengers.

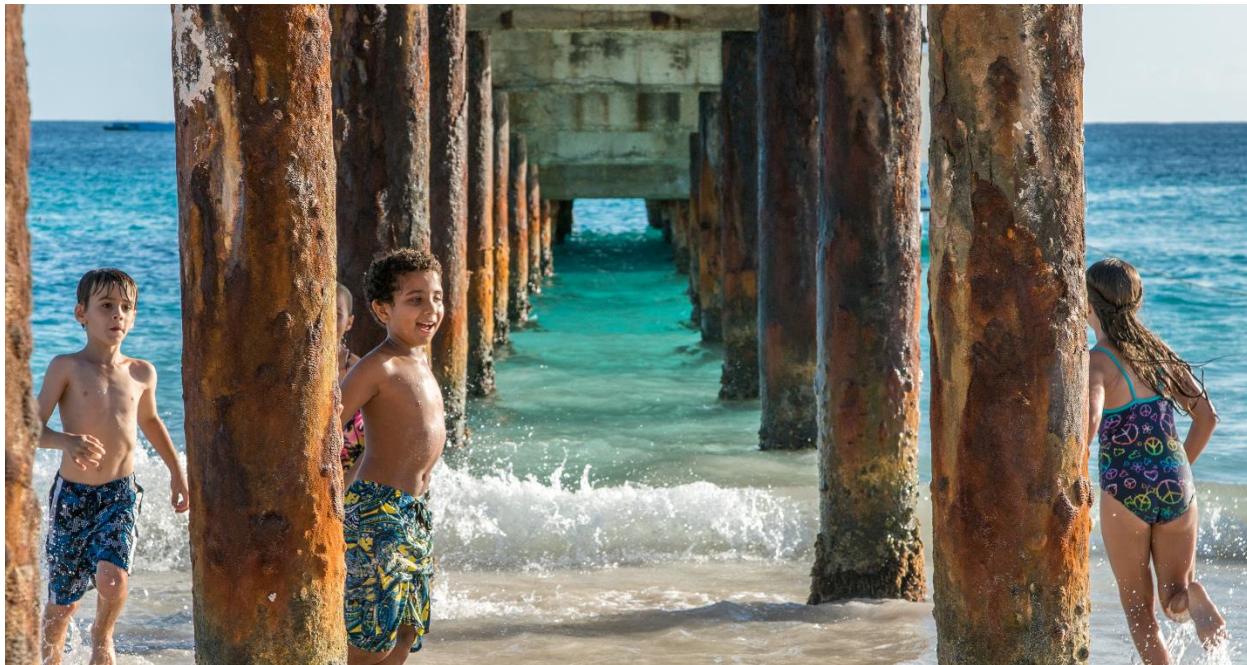

Overall, the CTO has reported that only 12 destinations registered growth, with the best performances occurring in the Dominican Republic (59.4%), the British Virgin Islands (35.4%) and Grenada (16.3%) while Belize, with an increase of 4.9%, became the eighth destination to record over one million cruise passenger visits this year. In contrast, 13 destinations had received between -0.3% (the Cayman Islands) and -19.1% (Guadeloupe) fewer cruise passengers for their respective reporting periods.

Virus tempered the demand for cruises while adverse weather forced several ports to be bypassed.⁹ The Caribbean Tourism Organization estimated that the region received 29.3 million international tourist arrivals, compared to 28.2 million in 2015. This corresponds to 1.1 million more arrivals or a 4.2% increase.

⁹ The Caribbean Tourism Organization (CTO) Performance of the Tourism Industry 2016

The figures revealed an equal distribution in performance among the four regions. Growth was recorded in both the Western (4.9%) and the Northern (2.5%) Caribbean. In contrast, decreases were registered in the Eastern Caribbean (-1.6%), the largest sub region for cruise passenger arrivals, and the Southern Caribbean (-0.9%), the smallest sub region.¹⁰

UNITED KINGDOM

Sources of Tourism Demand

The United Kingdom has retained its position as the leading producer of all the markets for 2016 accounting for 35.2% of business to Barbados, recording an increase of 2.1% when compared with 2015. This increase can be attributed to trade shows and road shows in the market, coupled with co-op marketing agreements and working closely with hotel partners.

Sources of Tourism Demand

During the year 2016, the USA continued to be the second highest producer of business with 26.8% of the market share; a 14.2% increase over 2015. This significant growth was mainly due to an increase in direct consumer and trade engagement as well as the strengthening of partner relations and a more targeted marketing approach. After recording declines in arrivals for three (3) years, the market rebound during the years 2015 and 2016 registering steady growth in arrivals of 24.8% and 14.2%, respectively.

EUROPE

Sources of Tourism Demand

Europe saw a decline in business for the year 2016. This market recorded a decline of 2.6% when compared with 2015 and accounted for 5.7% of the overall traffic to this destination. This market's performance is steadily on the upswing with a National Tourist Office now in Germany, and some increase in capacity from Munich. There continues to be a demand to travel to this destination despite the airlift challenges. (**See Table 1**).

CRUISE PERFORMANCE

Cruise Arrivals - Overview

Overall, the Bridgetown Port welcomed 729,645 cruise arrivals in 2016 up from 711,400 in 2015 and an increase of 2.6%. From this total, some 594,096 cruise passenger arrivals were recorded in 2016 compared to the 586,615 recorded during the same period in 2015; a slight increase of 1.3%.

Overall arrivals during the five core winter months of 2016 (Jan-March and Nov- Dec 2016) represented 74% of total cruise passenger volume for 2016; an increase of eleven percentage points over 2015. The months of January and December recorded the highest arrivals and growth. It is important to note that there was a steep decline in arrivals during the period March to November ranging from -58.1% (October) to -4.7% (November). This highlights the seasonality challenges that face this sector.

Cruise Calls

According to the Barbados Port Inc. during 2016, there was an increase in the number of cruise ship calls to Barbados when compared with the corresponding period during 2015. Cruise calls increased from 395 in 2015 to 424 during 2016.

Inaugural Calls

There were thirteen (13) inaugural calls; including mega ships – MS Koningsdam, Carnival Sunshine and Mein Schiff 5 with lower berths of 2,650, 2,642 and 2,500, respectively.

MS Koningsdam, a new vessel which sailed her maiden voyage on April 8, 2016, is a Dutch cruise ship operated by Holland America Line (HAL), a division of Carnival Corporation. The class leader of HAL's Pinnacle class ships, she is by far the largest ship ever to be constructed for HAL.

Carnival Sunshine (formerly Carnival Destiny) is the lead ship of the Destiny-class of cruise ships.

Mein Schiff 5, owned by TUI Cruises sailed her maiden voyage on July 16, 2016.

The home porting performance in winter 2016 was very encouraging due to the fact that the majority of the vessels, inclusive of inaugurals for the same period are European and present tremendous opportunity for integration with land based tourism. The United Kingdom remained the island's number one source market.

With respect to home porting, there were 122,411 home porting arrivals in 2016 compared to 111,220 for 2015 and this developing segment increased by 10% YOY with three new home porting ships arriving in 2016.
